UNUS

1. ABOUT OUR COMPANY

UNUS ENGINEERING & CONSULTANTS, leading quantity surveying firm specializing in providing accurate, transparent, and cost-effective solutions for construction projects. Our team of certified professionals has extensive experience in cost estimation, cost planning, and project management, serving a wide range of industries including residential, commercial, industrial, and infrastructure projects.

We are committed to delivering value to our clients through expert advice, detailed cost assessments, and proactive risk management, ensuring projects are completed on time and within budget.

Our services are built on a foundation of integrity, professionalism, and collaboration with clients, contractors, and other stakeholders.

UNUS

2. OUR MISSION

Our mission is to provide professional, reliable, and high-quality quantity surveying services that support the successful delivery of construction projects.

We aim to add value to every project by helping our clients make informed decisions, control costs, and achieve their project goals efficiently and effectively.

To be the preferred quantity surveying firm, known for our integrity, innovation, and excellence in providing precise, sustainable, and cost-effective solutions for the construction industry.

MISSION

UNUS

3. OUR GOALS

GOAL # 1

To provide precise and well-researched cost estimates that help clients make informed decisions and avoid budget overruns.

GOAL # 2

To develop strong, lasting relationships with clients by consistently delivering exceptional service and value.

GOAL # 3

To find innovative and cost-effective solutions for clients, ensuring optimal value in every project.

UNUS

4. OUR SERVICES

1	Quantity Surveying Determining the quantities of materials needed for a project
2	Cost Estimation & Budgeting Estimating project costs and setting a budget
3	Cost Control & Monitoring Tracking and managing project expenses
4	Contract Administration Managing contracts and agreements
5	Planning & Project Management Organizing and overseeing project execution

UNUS

7. CORE VALUE

- **Integrity:** We adhere to the highest ethical standards, ensuring transparency and honesty in all our dealings.
- **Excellence:** We are committed to delivering the best quality service, consistently exceeding client expectations.
- **Collaboration:** We work closely with clients, contractors, and consultants to achieve optimal outcomes for each project.
- **Sustainability:** We promote sustainable practices in construction cost management, encouraging efficient resource use and minimizing waste.
- **Innovation:** We stay ahead of industry trends and adopt the latest technology to provide cutting-edge solutions to our clients

UNUS

5. INDUSTRIES WE SERVE

Residential: From single-family homes to large-scale housing developments, we provide expert cost management services for residential projects.

Commercial: We assist businesses and developers with commercial building projects, including office spaces, retail centers, and mixed-use developments.

Infrastructure: We offer services for large infrastructure projects, including roads, bridges, utilities, and public facilities.

Industrial: Our team is experienced in managing the costs of complex industrial facilities, factories, and warehouses.

6. FOUNDERS

Our team of experienced quantity surveyors is composed of certified professionals with a strong background in construction, engineering, and project management. We continuously invest in training and development to ensure our team is equipped with the knowledge and skills to manage even the most complex projects

UNUS HOMES

GROUND SCREWS

- “Elevated by innovation, grounded in sustainability.”
- Our unusual homes based on ground screw foundations redefine modern living with minimal land disturbance, faster construction, and eco-conscious design.
- Blending architecture with nature, these homes offer strength, flexibility, and a unique contemporary lifestyle for the future.

UNUS HOMES

GROUND SCREWS

A ground screw is a strong steel foundation system that is drilled into the soil like a giant screw to support buildings without heavy excavation or concrete foundations.

• What are the benefits of ground screws?

Advantage	Description
 Easy Installation	Install all year round with wide range of machines
 Consistent Quality	Predictable quality across all projects
 Instant Load-Bearing	Support weight immediately
 Cost-Effective	Reduce labour, time, and material costs
 Suitable for any Soil	Customised for various soil types
 Reusability	Reusable, eco-friendly foundations

UNUS HOMES

GROUND SCREWS

Difference between Concrete & Ground Screw

Concrete		Ground Screws	
Requires 24–72 hours of curing time Slow deployment process		Installation Speed 	Installed within minutes Rapid project completion
Needs digging, formwork, and leveling Extensive ground disturbance		Site Preparation 	No excavation or formwork needed Minimal site disruption
Subject to delays during rain or cold Curing process sensitive to climate		Weather Dependency 	Can be installed in any weather Climate-independent application
High CO ₂ emissions from cement production Significant carbon footprint		Environmental Impact 	Low carbon footprint and reusable Sustainable construction choice
Requires more labor, mixers, and tools Heavy resource demand		Labor & Equipment 	Uses fewer people and minimal machinery Efficient resource utilization
Strong but prone to cracking over time Potential for structural degradation		Load Performance 	Provides high pull-out and lateral strength Reliable structural integrity
Permanent and difficult to remove Fixed structural installation		Removability 	Easy to unscrew and relocate Flexible and modular design

Ground Screws for Solar

Ground Screws for Fencing

Ground Screws for Temporary Structures

UNUS HOMES

ITEM	SPECIFICATION
Foundation	Ground screw
Structure	Galvanized Structure
wall Design Bye	Siporex Wall Panel
Internal / External Plaster	Internal 12 to 15 mm Plaster , external -20 to 25 mm Plaster with Ultratech cement brand
Roof	Roof upvc triple coated 10 ft x 3 ft fiber sheet both side drain gutter, ridge end cap, end drop , tata- 2.5” coated screw with waterproof cap.
Insulation	Rockwool Insulation of 50mm
Windows	Aluminum 3 track sliding window in Jindal domal section 27 x 65 series with 6 mm tuff glass.
Doors	Main door – in 4mm casement series with key lock system
Plumbing	Cp sanitary in toilet jaguar antique copper quality
Electrification	Legrand switches, polycab wires
Tiles	Varmora Vitrified tiles
Colouring	External Apex , internal emulsion
